

Bio-HPF[®] from Biotics Research

Broad-Spectrum, Herbal-Based Blend for Gastrointestinal Support

Description – Anti-Inflammatory & Anti-Microbial GI Tract Support Formula

What does **HPF[®]** stand for? It means **Helicobacter Pylori Formula** named for the so-called *helicobacter Pylori* bacterium, which is responsible for gastric inflammation and erosion. This proprietary herbal blend contains: Deglycyrrhizinated Licorice (DGL), Slippery Elm, Berberine, Bismuth, Oregon Grape (Berberis), Bentonite Clay, Myrrh, Clove, Aniseed, Barberry and Wild Indigo. Clinical studies in terms of reduced saliva, stool and serum markers have demonstrated the effectiveness of this unique combination of substances for today's all too common H. Pylori-induced gastric ulcers and inflammation, gastrointestinal bacterial infections, parasites, and toxic bowel. Used together with Gastrazyme™ also from Biotics, **Bio-HPF[®]** is a potent alternative to the "standard of care" medical practice alternative of mega-dose antibiotic therapy.

Health Benefits – Broad-Spectrum Gastrointestinal & Other Systems Support

Bio-HPF[®] ingredients deliver research-proven benefits for such common conditions as:

- *Licorice* – Duodenal/gastric/peptic ulcers, Intestinal Permeability, Hepatitis
- *Slippery Elm* – Diarrhea, Heartburn, Irritable Bowel Syndrome (IBS), GI Ulcers
- *Berberine* – Gastroenteritis, Crohn's, Cystitis, Cancers (cellular inhibition of some)
- *Oregon Grape* – Detrimental Bacteria and Fungi, Urinary Tract Infections (UTIs)
- *Bentonite* – Candida, Diarrhea, Heartburn, Toxins (detoxification by adsorption)
- *Myrrh* – Gastric Ulcers (alcohol and NSAID-induced), Periodontal Disease
- *Clove* – Detrimental Bacteria, Gingivitis, Pain, Superoxide Free Radicals
- *Aniseed* – Bronchitis, Colic, Cough, Flatulence, Gastric Ulcers, Mucus
- *Barberry* – Detrimental Bacteria, Fungi & Protozoa, Gastroenteritis, UTIs
- *Wild Indigo* – Common Cold, Influenza, Laryngitis, Pharyngitis, Tonsillitis

Application – Clinical Indications

For gastrointestinal bacterial infection or as detailed above, take 2 capsules 2-3 times daily or as directed; not recommended in pregnancy or lactation. Use **Gastrazyme™** (mixed carotenoids, gamma oryzanol from rice bran oil, chlorophyllins from mulberry, vitamin U complex from cabbage juice, and antioxidant enzymes) for general gastric distress, promotion of GI tract healing, dehydration-induced stomach pain, chronic stress lifestyle, mindless dietary habits, and Gastrointestinal Reflux Disease (GERD); take 2-3 tablets three times daily before meals or as directed (6 tabs 3 times daily with meals for ulcers for 30 days or until inflammation resolves and lesions heal.
